QUICK inventory

Online Inventory Program

A Product of Karmick Solutions Pvt Ltd.

Modern day inventory is managed by sophisticated system applications that are designed to manage complex inventory plans and to a large extent contain processes that initiate and streamline the operations and inventory management.

Our Quick Inventory helps you to sell anywhere, manage in one place

Automatically synchronizes stock levels of all products sold at multiple counters

Easily customizable to fit your requirement.

Salient Features

- ✓ Reliable and user friendly

- ✓ Completely web based. Nothing to install on your machine.

- ✓ Quick customization available

- ✓ Can accommodate any number of products and users with admin and super admin

- ✓ Excellent reporting system for admin and super admin

User types

There are three types of user in the system

| Super Admin	• Super admin has overall control over the site.
Admin	• This user has limited power to manage items of the inventory. Access level is defined by super admin.
Branch users	• These users are allowed to sell items and send requisition to admin when stock reaches re-order level.

Some glimpses of Admin Panel

Admin login page

Admin can perform following list of operation

- ✓ Manage company
- ✓ Manage branches
- ✓ Manage branch users
- ✓ Vendor management
- ✓ Purchase management
- ✓ Manage items
- ✓ Sales management
- ✓ Requisition management
- ✓ Inter-branch transfer management
- ✓ View reports
